

# Transportation of Delhi Metro Rail cars

## Client profile

Client is a government organization responsible for setting up and operating metro rail system in New Delhi. Supplier of the rail cars for the client needs a reputed company with regard to HSE, Security, Safety, Reliability, Punctuality and Transit commitment

## Business Challenge

- Mobilize trailers timely to meet the dispatch schedule and deliver each train set in 7days
- Obtain clearance from Rajasthan government to move the rail coaches in no time without halting in the check post and complete formalities to cross Gujarat, Rajasthan, Haryana and Delhi.
- Transport the rail cars in Delhi city during night, crossing many under-passes and overhead sign boards
- Had to place crane on time to undertake unloading of rail cars on the day of arrival of trailers

## Procama's Role

- Route survey and selection of suitable trailer for transportation along with contingency plan
- Co- ordination with NHAI & RTO Authorities for trouble free movement
- Plan for mobilization of equipment in right time to meet dispatch schedule and Vehicle tracking
- Journey management with deployment of experienced operating crew till unloading & delivery

## Client Benefits

- Procama delivered the services on-time with no damages to the cargo with innovative lifting solutions
- The execution was flawless and client was able to meet its commitment to their ultimate customer
- Planned movement with backup arrangements provided no delay in dispatch
- Transported 330 rail cars well within schedule without any incident.
